## HOLY ANGEL UNIVERSITY

### Business Overview

MadeByMiren is a small creative business that specializes in handmade art commissions and polymer clay keychains. The business runs mainly through Instagram and in person and serves customers who are looking for uniquely custom accessories and commissioned pieces of art. The owner handcrafts every product, which displays a passion for quality, creativity, and customer service.

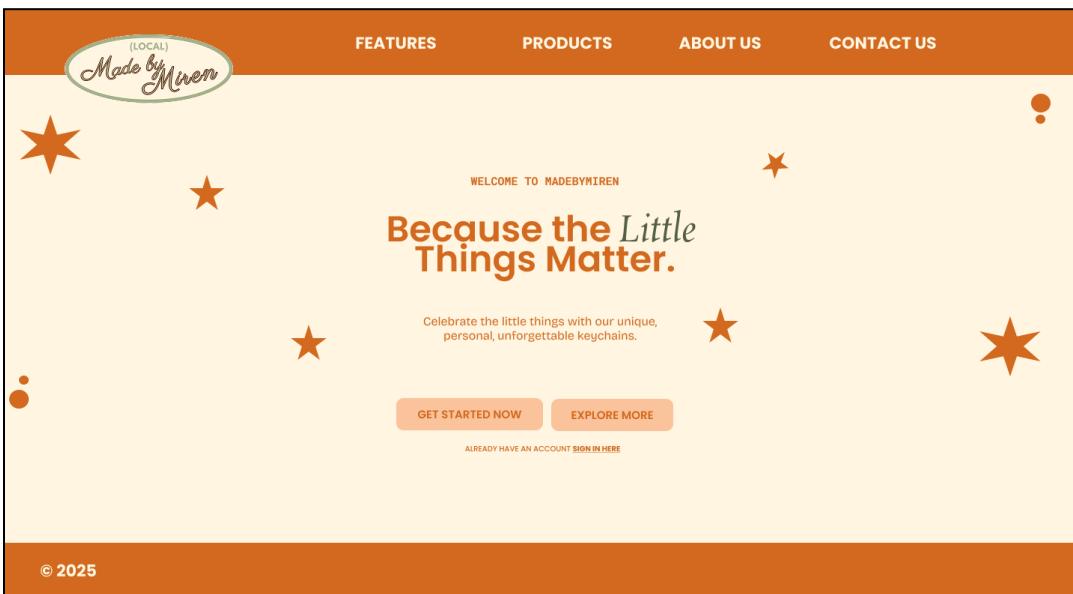

At present, the business manages orders manually using Instagram direct messages and personal notes, which presents challenges when attempting to keep track of commissions, manage customer information, and track payment records. In order to resolve these inefficiencies and further improve customer service, MadeByMiren is shifting to a more structured and intentionally designed digital platform that will provide both improved order management, product display, and customer browsing and purchasing experiences.

### Website Overview

The MadeByMiren website is a complete digital website designed to represent the business's handmade products to the audience, navigate client engagements, and share aspects of the brand. The design is simple yet eye-catching, reflecting at its core the creative spirit of MadeByMiren while being simple to use. The website features a Landing Page that introduces the brand to visitors, presenting the logo, navigation, and overview of the business's mission; a Feature Page that focuses on MadeByMiren's main offerings, including custom art commissions, handmade clay keychains, and personalized designs; a Product List Page that displays product imagery, description, price, and a search bar as well as other items available; and a Contact Us Page with a Customer inquiry form and mockups for email and social media marketing campaigns. The prototype also includes API mockups of product data retrieval, customer tracking, and message management, plus a google maps mockup representing the business location. Overall, the website will serve to provide efficiency and engagement regarding the brand and client access, building on the foundation for development into a fully functional web-based system in the future.

## HOLY ANGEL UNIVERSITY

### Landing Page

### Functionality

- Navigation** - Includes the business logo and navigation to different pages of the website. It features clear and straightforward labels that highlight MadeByMiren's offerings, such as Features, Products, About Us, and Contact Us. The navigation ensures smooth browsing and helps visitors or users quickly find what they're looking for.
- Hero Section** - It features the welcoming tagline "Because the Little Things Matter", which captures the brand's purpose.. The section includes supporting text and two clear call-to-action buttons: "Get Started Now" and "Explore More." These encourage user engagement and direct visitors toward exploring the products or creating an account.
- Visual Appeal** - The website uses a warm, minimalist design inspired by handmade craft aesthetics. Soft beige and orange tones create a cozy and trustworthy atmosphere, while the stars

## HOLY ANGEL UNIVERSITY

and dots add a playful charm that reflects the creativity behind MadeByMiren's products.

### Purpose

The primary purpose of MadebyMiren's landing page is to attract customers, introduce the brand's charm, and encourage engagement.

- 1. Attract and Inform** - To immediately draw visitors in with a warm and welcoming aesthetics. The landing page highlights what MadeByMiren is all about, a locally made, handcrafted keychain that celebrates life's little joys and stories.
- 2. Engage** - To inspire visitors to take action through clear calls to action "Get Started Now" and "Explore More". These will guide users to explore the catalog, create an account, or make their first purchase, turning curiosity into action.
- 3. Establish Brand Identity** - To strengthen MadebyMiren's image as a local, creative, and heartfelt brand. The cozy color palette illustrates the approachable tone of the brand.
- 4. Build Connection** - To form an instant emotional bond with visitors by nostalgia and delight that reminds them that the little things truly matter.

## HOLY ANGEL UNIVERSITY

### Log In / Sign Up Page

### Functionality

1. **User Registration** - Enables new users to sign up by filling out personal details such as name, address, and contact number.
2. **Account Verification** - Verifies user credentials for secure access.
3. **Form Validation** - Ensures that all required fields are completed before signing up .
4. **Data Storage** - Saves user information in the database for future log ins and transactions.
5. **Log In Access** - Allows existing users to sign in quickly and continue browsing or ordering.
6. **Navigation** - Includes “Reset” and “Go Back” buttons for convenience and better navigation flow.

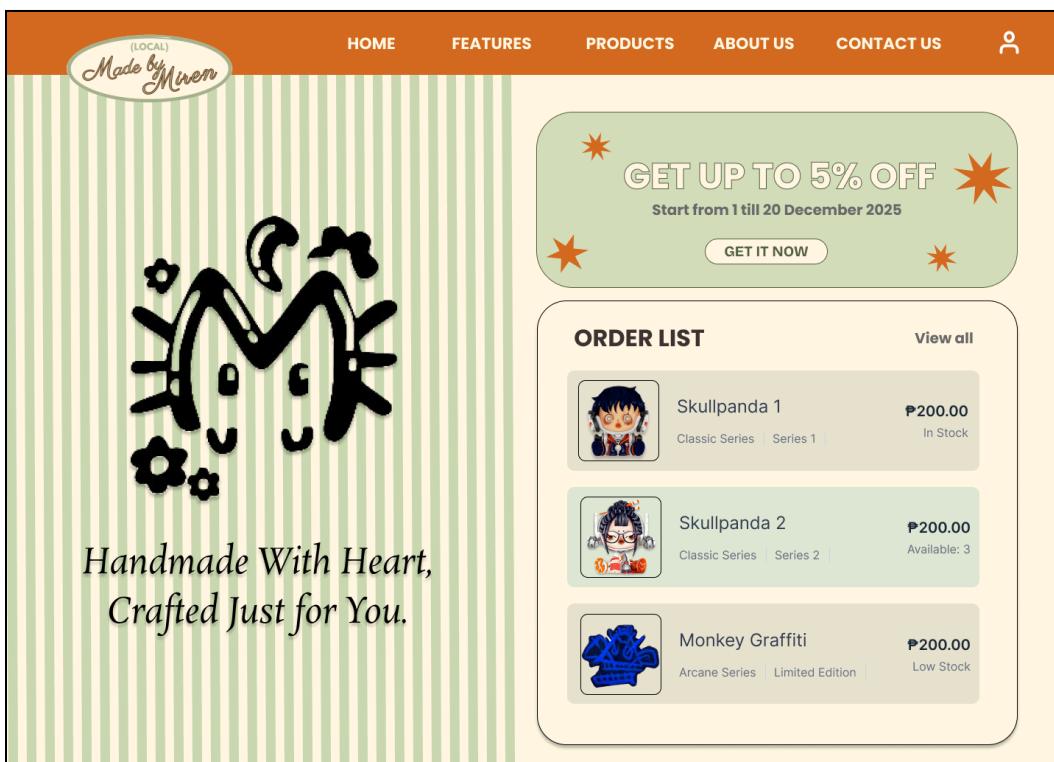

### Purpose

1. **Secure Access** - Give users a safe and personalized way to explore and purchase MadebyMiren’s products.
2. **Build Trust** - To strengthen connection with customers by allowing personal account creation.

## HOLY ANGEL UNIVERSITY

3. **Easy Access** - To make it easy for returning users to access their account and past interactions.
4. **Management and Communication** - To support efficient order management and communication between user and the brand.
5. **Community Growth** - To encourage a loyal base of customers who value handcrafted and local creations.

### User Dashboard / Home

### Functionality

1. **Display Promotions and Discounts** - Shows current promos such as “Get up to 5% Off” with an active call to action button.
2. **Show Order List** - Displays the user’s recent orders with a “View All” option to check full order history.

## HOLY ANGEL UNIVERSITY

- Provide Quick Overview** - Gives users a personalized summary of their account right after login, highlighting their recent offers.

### Purpose

- Centralized User Information** - To allow users to access all essential details like orders, discounts, and updates in one place.
- Encourage User Engagement** - To promote user interaction by highlighting active promotions and quick navigation.
- Improve User Experience** - To ensure a smooth and organized dashboard layout where users can easily track their activity and stay updated.

### Feature Page

The image shows two side-by-side screenshots of a website for "MadeByMiren".

**Left Screenshot (Standard Homepage):**

- Header:** "Crafted Just for You" with a subtext "WEAR YOUR STONE ONE CHARM AT A TIME".
- Section:** "OUR ECO PROMISE" featuring a circular flow diagram with four boxes: "ECO DESIGN", "HANDMADE PRODUCTION", "RESPONSIBLE PACKING", and "MEANINGFUL USE".
- Section:** "OUR CREATIONS" with three categories: "Art Commissions", "Polymer Clay Keychains", and "Made for You".
- Section:** "BEHIND THE CLAY" with a paragraph about the creative process and a small image of a clay sculpture.

**Right Screenshot (Feature Page):**

- Section:** "Why CHOOSE MADEBYMIREN" with a subtext: "With madebymiren, you can request unique polymer clay creations, request custom designs, and order easily through Instagram or Messenger—personalized art made just for you."
- Section:** "Testimonials" with a heading "See What Our Customers Words" and two testimonial cards:
  - JAKE G.**: "What I love about madebymiren is how personal each piece feels. You can tell it's handmade with care. It's not just a keychain—it's a little piece of art I carry with me every day."
  - SOPHIA M.**: "I ordered a custom keychain as a gift for my best friend, and it turned out even better than I imagined! The details were perfect, and she absolutely loved it. Truly made with love!"
- Section:** "grab your clay cutie now!" with a "ORDER NOW" button and a small image of a clay creation.

## HOLY ANGEL UNIVERSITY

### Functionality

1. **Feature Highlights** - Displays the product uniqueness through sections.
2. **Testimonials Displays** - Shows real customer feedback to boost reliability.
3. **Informative Layout** - Combines visuals and short texts to keep users engaged and informed.
4. **Consistent Branding** - Maintains warm tones, handcrafted visuals, and cozy brand identity.

### Purpose

1. **Showcase Craftsmanship** - Highlights MadebyMiren's unique handmade creations and eco conscious process.
2. **Build Trust** - Feature customers testimonials to create credibility and emotional connection.
3. **Promote Values** - Emphasize sustainability, local artistry, and meaningful design choices.
4. **Encourage Exploration** - Guide visitors to discover different product categories and creative offerings.
5. **Inspire Action** - Motivate users to place an order or inquire about commissions.

### Functionality

1. **Product Display** - Shows product imagery, descriptions, and prices for all available items
2. **Search Bar** - Allows users to search through the product catalog to quickly find specific items
3. **Product Categories** - Displays handmade clay keychains, custom art commissions, and personalized designs
4. **Product Cards** - Each item is presented with visual representation and key details
5. **Quantity Selection** - Enables users to select the desired quantity of products they wish to purchase
6. **Product Rating System** - Allows customers to rate products on a 1-5 star scale, displaying average ratings to help other buyers
7. **Navigation** - Includes consistent header/footer navigation for easy browsing

## HOLY ANGEL UNIVERSITY

### Purpose

1. **Showcase Products** - To display MadeByMiren's full range of handmade offerings in an organized, browsable format
2. **Enable Discovery** - To help customers easily find and explore products through search and visual browsing
3. **Inform Purchasing Decisions** - To provide essential product information (images, descriptions, prices, ratings) that helps customers make informed choices
4. **Facilitate Orders** - To allow customers to specify quantities directly from the product list, streamlining the ordering process
5. **Build Trust and Credibility** - To leverage customer ratings and reviews, helping new customers feel confident about product quality
6. **Encourage Engagement** - To invite customer feedback through the rating system, fostering community interaction and improving products based on user experience
7. **Drive Sales** - To encourage product exploration and facilitate the purchasing process through clear information and social proof

## HOLY ANGEL UNIVERSITY

### Contact Us Page

### Functionality

- Contact Form** - Includes fields for name, email, contact number, and message for direct communication.
- Clickable Location** - Redirects to a separate page displaying the store's location on a map.
- Interactive Social Links** - Clicking on social media icons redirects to the MadebyMiren's accounts.
- Business Information** - Displays store address, contact details, and operating hours.

### Purpose

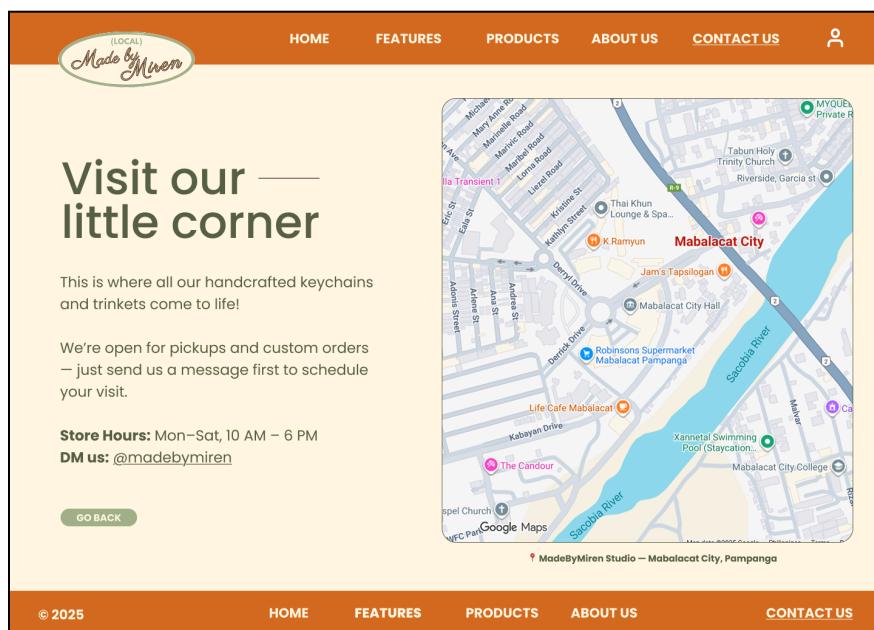

- User Support** - Allows users to easily reach out for inquiries, feedback, or assistance.

## HOLY ANGEL UNIVERSITY

2. **Engagement** - Encourages visitors to connect through social media for updates and promotions.
3. **Accessibility** - Provides clear contact details, operating hours, and direct links to communication channels.
4. **Navigation** - Lets users access additional pages.

### Google Maps API

Note: This can be accessed by clicking the location text on the Contact Us page.

### Functionality

1. When users click the location text on the Contact Us page, they are redirected to a separate page displaying the store's map. This map provides an interactive view using Google Maps, allowing users to get directions to MadebyMiren's shop directly.

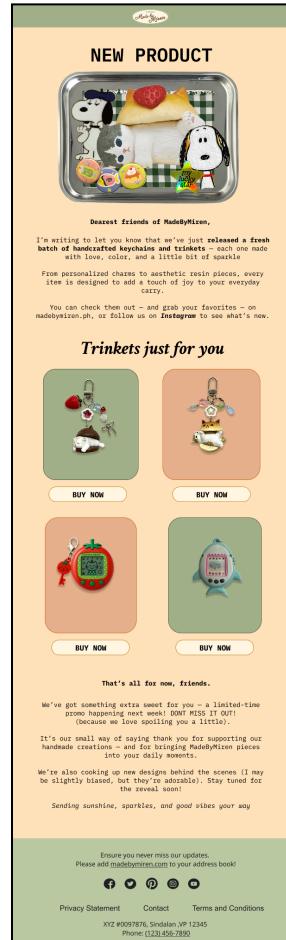

### Purpose

1. To help users easily find the physical store or shop location of MadebyMiren, ensuring convenient access for visits, pickups, and in person inquiries.

## HOLY ANGEL UNIVERSITY

### Email Marketing

Note: This can be accessed by clicking the MadebyMiren email on the Contact Us page.

### Functionality

- When users click the email address on the Contact Us page, it automatically opens their default application, allowing them to send inquiries, feedback, or subscribe to MadebyMiren's newsletter.

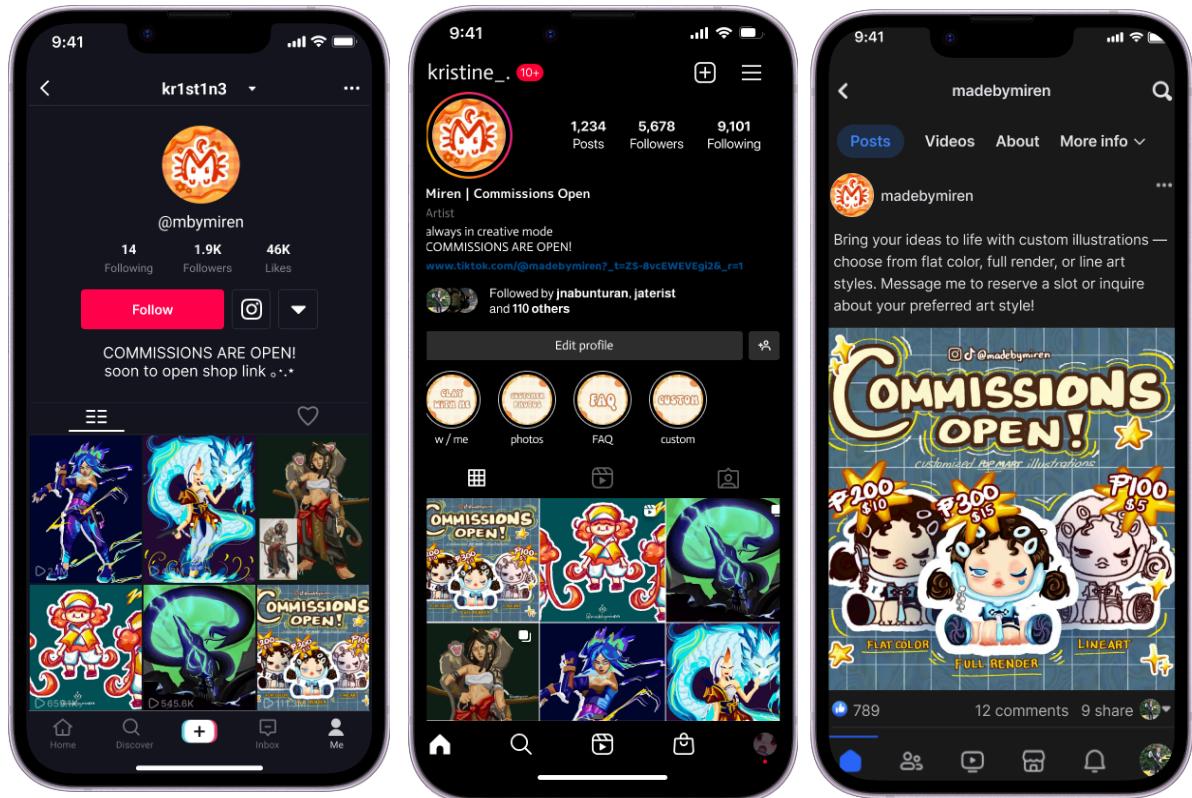

### Purpose

- To connect directly with customers through personalized messages, updates, and promotions, helping build stronger brand relationships and encourage repeat purchases.

## HOLY ANGEL UNIVERSITY

### Social Media Marketing Posts

Note: This can be accessed by clicking the Social Media Icons on the Contact Us page.

### Functionality

- When users click any of the social media icons, they are redirected to MadebyMiren's official pages or posts, where they can view product promotions and announcements.

### Purpose

- To promote engagement, showcase products, and share creative content that highlights MadebyMiren's brand identity and latest updates.

# HOLY ANGEL UNIVERSITY

## RESTful API

### 1. Products / Services Information

The screenshot shows a web-based application interface for managing orders. On the left, there's a sidebar with a logo 'Made by Mireen (LOCAL)' and a navigation menu with options: Dashboard, Reports, Orders (which is selected), Customers, and Messages.

The main content area has a search bar at the top: 'Search by Name, Email, or Customer ID'. Below it, there's a header 'Orders' with tabs: 'Orders Invoices (45)' (which is active) and 'Information (120)'. There are also icons for a bell and user profile.

The 'Orders Invoices (45)' section displays a list of six order cards:

Order #	Description	Price	Quantity	Delivered	Date
Order #1	Skullpanda	₱200	1 PCS	Delivered	1/10/25
Order #2	Friendship	₱150	1 PCS	Delivered	3/10/25
Order #3	Angeles	₱200	1 PCS	Delivered	5/10/25
Order #4	Hyphy Bodega	₱300	2 PCS	Delivered	9/10/25
Order #5	Skullpanda	₱150	1 PCS	Delivered	13/10/25
Order #6	Madebymireen	₱250	1 PCS	Delivered	17/10/25

Below the order cards, there's a note: 'This is a computer-generated invoice. No signature required.' followed by 'Thank you for your purchase!'.

To the right of the order cards, there's a section for 'Order Details' with fields: Name: Skullpanda, Order ID: #56452568; Variety: 1, Quantity: 1; Order Date: 1/10/2025, Invoice Date: 2/10/2025.

At the bottom, there's a table for 'Order Details' with columns: Description, Price, Qty, Discount, Total. It shows one item: Skullpanda 1 at ₱150 with a quantity of 1, resulting in a total of ₱150. It also lists a Shipping Fee of ₱50 with a quantity of 1, resulting in a total of ₱50. The total amount is ₱200.

At the very bottom, there are navigation arrows for pagination (1 - 15 of 45) and a 'SEND INVOICE' button.

### Orders Invoices (Admin View)

#### Functionality

- Order List Display** - Shows all customer orders using GET API, displaying 45 total order invoices with pagination (showing 1-15 of 45)
- Detailed Order Cards** - Each order displays:
  - Order number (e.g., Order #1, #2, #3)
  - Product thumbnail image
  - Price (₱200, ₱150, ₱300, etc.)
  - Quantity (1 PCS, 2 PCS)
  - Delivery status (Delivered)
  - Order date (1/10/25, 3/10/25, etc.)

## HOLY ANGEL UNIVERSITY

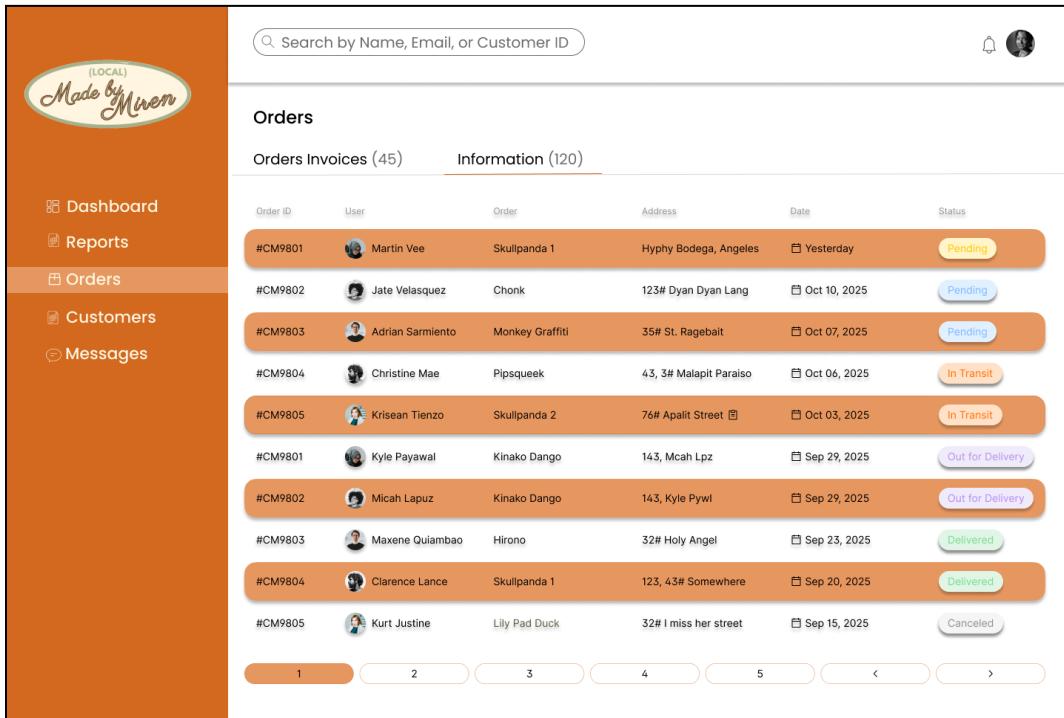

3. **Order Selection** - Clicking an order displays detailed invoice information on the right panel
4. **Invoice Generation** - Shows comprehensive order details including:
  - Customer information (Name, Address)
  - Order ID with barcode (e.g., #56452568)
  - Product details (Name, Variety, Price, Quantity)
  - Shipping fee calculation
  - Discount application
  - Total amount breakdown
  - Invoice date and order date
5. **Search Functionality** - Search bar at top allows filtering orders by Name, Email, or Customer ID
6. **Send Invoice Button** - Enables admin to send computer-generated invoices to customers
7. **Navigation Controls** - Pagination arrows allow browsing through multiple pages of orders

### Purpose

1. **Order Tracking** - To help administrators efficiently monitor and manage all customer orders in one centralized location
2. **Invoice Management** - To generate and send professional invoices automatically with barcode tracking
3. **Financial Overview** - To track revenue per order and calculate totals including shipping fees and discounts
4. **Customer Service** - To quickly access order history and details when customers inquire about their purchases
5. **Record Keeping** - To maintain accurate financial and transaction records for business operations and accounting
6. **Status Monitoring** - To track delivery status and ensure timely fulfillment of orders

# HOLY ANGEL UNIVERSITY

## Orders Information Table (Admin View)

The screenshot shows the 'Orders' section of the Made by Mireen Admin Dashboard. At the top, there's a search bar with placeholder text 'Search by Name, Email, or Customer ID'. To the right of the search bar is a user profile icon. Below the search bar, the title 'Orders' is displayed, followed by two tabs: 'Orders Invoices (45)' and 'Information (120)'. The 'Information (120)' tab is selected. The main area contains a table with columns: Order ID, User, Order, Address, Date, and Status. The table lists 10 rows of order data, each with a small user profile picture, the order ID (#CM9801 to #CM9805), the user name (Martin Vee, Jate Velasquez, Adrian Sarmiento, Christine Mae, Krisean Tienzo, Kyle Payawal, Micah Lapuz, Maxene Quiambao, Clarence Lance, Kurt Justine), the order name (Skullpanda 1, Chonk, Monkey Graffiti, Pipsqueek, Skullpanda 2, Kinako Dango, Kinako Dango, Hirono, Skullpanda 1, Lily Pad Duck), the address (Hyphy Bodega, Angeles; 123# Dyan Dyan Lang; 35# St. Ragebait; 43, 3# Malapit Paraiso; 76# Apalit Street; 143, Mcah Lpz; 143, Kyle Pywl; 32# Holy Angel; 123, 43# Somewhere; 32# I miss her street), the date (Yesterday, Oct 10, 2025, Oct 07, 2025, Oct 06, 2025, Oct 03, 2025, Sep 29, 2025, Sep 29, 2025, Sep 23, 2025, Sep 20, 2025, Sep 15, 2025), and the status (Pending, Pending, Pending, In Transit, In Transit, Out for Delivery, Out for Delivery, Delivered, Delivered, Canceled). Below the table is a navigation bar with page numbers 1 through 5 and arrows for navigating between pages.

Order ID	User	Order	Address	Date	Status
#CM9801	Martin Vee	Skullpanda 1	Hyphy Bodega, Angeles	Yesterday	Pending
#CM9802	Jate Velasquez	Chonk	123# Dyan Dyan Lang	Oct 10, 2025	Pending
#CM9803	Adrian Sarmiento	Monkey Graffiti	35# St. Ragebait	Oct 07, 2025	Pending
#CM9804	Christine Mae	Pipsqueek	43, 3# Malapit Paraiso	Oct 06, 2025	In Transit
#CM9805	Krisean Tienzo	Skullpanda 2	76# Apalit Street	Oct 03, 2025	In Transit
#CM9801	Kyle Payawal	Kinako Dango	143, Mcah Lpz	Sep 29, 2025	Out for Delivery
#CM9802	Micah Lapuz	Kinako Dango	143, Kyle Pywl	Sep 29, 2025	Out for Delivery
#CM9803	Maxene Quiambao	Hirono	32# Holy Angel	Sep 23, 2025	Delivered
#CM9804	Clarence Lance	Skullpanda 1	123, 43# Somewhere	Sep 20, 2025	Delivered
#CM9805	Kurt Justine	Lily Pad Duck	32# I miss her street	Sep 15, 2025	Canceled

## Functionality

- Comprehensive Order Table** - Displays all orders (120 total) in a tabular format using GET API with columns:
  - Order ID (e.g., #CM9801, #CM9802)
  - User (with profile picture and name)
  - Order (product name like "Skullpanda 1", "Chonk", "Monkey Graffiti")
  - Address (delivery location)
  - Date (order placement date)
  - Status (Pending, In Transit, Out for Delivery, Delivered, Canceled)
- Status Color Coding** - Visual status indicators:
  - Orange: Pending, In Transit
  - Purple: Out for Delivery
  - Green: Delivered
  - Gray: Canceled

## HOLY ANGEL UNIVERSITY

3. **Highlighted Rows** - Orange highlighting for specific orders requiring attention
4. **Search Functionality** - Top search bar filters by Name, Email, or Customer ID
5. **Pagination System** - Bottom pagination (1, 2, 3, 4, 5) allows browsing through multiple pages of order data
6. **Tab Navigation** - Toggle between "Orders Invoices (45)" and "Information (120)" views

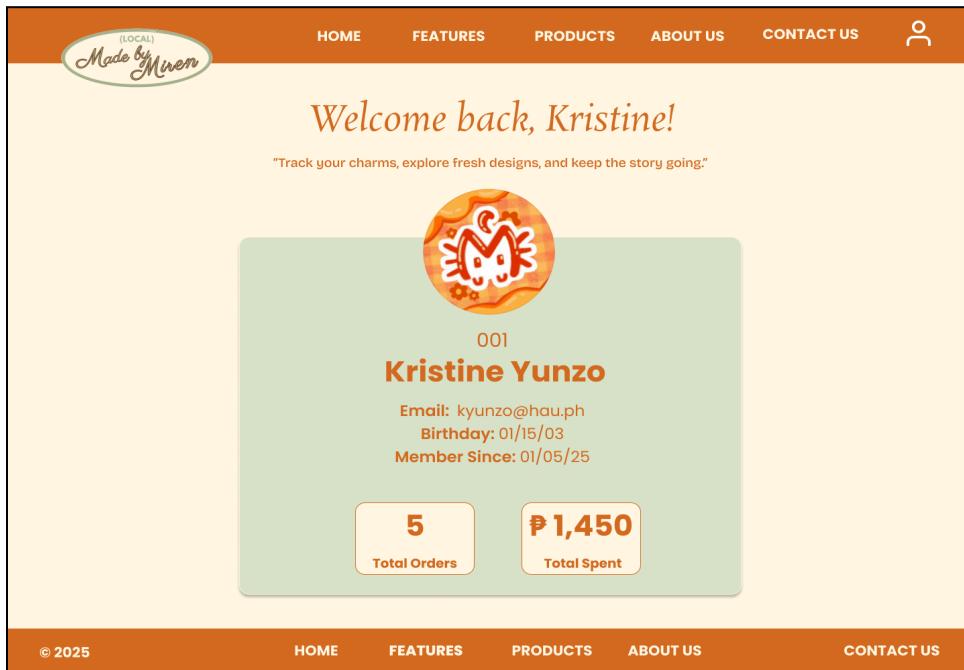

### Purpose

1. **Order Management Overview** - To provide administrators with a quick, comprehensive view of all orders and their current status
2. **Status Tracking** - To monitor order progress from pending to delivery, identifying orders that need attention
3. **Customer Monitoring** - To track which customers are ordering what products and where deliveries are being sent
4. **Priority Identification** - To highlight urgent or important orders through color coding and row highlighting
5. **Efficient Search** - To quickly locate specific orders or customers for inquiries and updates
6. **Workflow Organization** - To help admins prioritize tasks based on order status (e.g., process pending orders, prepare in-transit orders for delivery)
7. **Performance Analytics** - To analyze order volumes, popular products, and delivery patterns over time

## HOLY ANGEL UNIVERSITY

### 2. Customer Information

#### a. User-end View

#### Functionality

- With this feature, the authenticated user can view all of their personal account data, which is dynamically rendered by submitting a filtered GET API request with their unique user ID. In order to provide a customized experience, this API call aims to safely obtain and show their primary profile data, such as their Name, Email, and Date Joined, in addition to important sales indicators like their Total Orders count and Total Spent amount, straight from the created database.

#### Purpose

- To assist the administrator in effectively tracking returning customers, identifying high-value consumers (such as **Kristine Yunzo**, who has five orders), and monitoring customer behaviour.

## HOLY ANGEL UNIVERSITY

2. To keep accurate records of customer interactions and guarantee that all information stored on the User Profile View is consistent and accessible from a single source.

### b. Admin View

The screenshot shows a web-based admin dashboard for a local business named "Made by Mireen". The left sidebar has a dark orange background with white icons and text for Dashboard, Reports, Orders, Customers (which is highlighted in orange), and Messages. The main content area has a light gray background. At the top, there's a search bar with placeholder text "Search by Name, Email, or Customer ID" and a notification bell icon. Below the search bar, the title "Messages" is displayed. Underneath, there are three tabs: "All Customers (45)", "Orders (120)", and "Profit (₱ 39,200)". A large table follows, with columns labeled "ID No.", "Name", "Email", "Birthday", "Date Joined", "Orders", and "Total Spent". The table contains 15 rows of customer data. At the bottom of the table, it says "1 - 15 of 45".

ID No.	Name	Email	Birthday	Date Joined	Orders	Total Spent
001	Kristine Yunzo	kyunzo@hou.ph	01/15/03	01/05/25	5	₱ 1,450
002	Krisean Tienzo	kgt@gmail.com	04/08/05	01/21/25	2	₱ 720
003	Christine Yunun	cyunun@icould.com	10/20/05	02/08/25	4	₱ 1,180
004	Kurt Sicat	kurt123@gmail.com	08/07/06	03/02/25	10	₱ 3,250
005	Nero Panganiban	nero@icloud.com	01/02/03	03/16/25	1	₱ 550
006	Kath Bernardo	kath@gmail.com	03/25/95	03/25/25	5	₱ 1,890
007	Gianne Aisle	gaisle@icloud.com	02/01/05	04/08/25	3	₱ 950
008	Max Magalona	Max@gmail.com	04/09/02	05/01/25	8	₱ 2,600
009	Lane Parungao	lane@icloud.com	04/30/05	05/17/25	6	₱ 1,770
010	Adrien Sarm	adrien@gmail.com	05/02/01	06/04/25	2	₱ 880
011	Jate Vel	jvelasquez@hou.ph	02/14/95	06/18/25	1	₱ 450
012	Kyle Pay	Kypay@gmail.com	11/12/13	07/03/25	1	₱ 510
013	Katy Perry	katy@icloud.com	12/12/05	08/11/25	2	₱ 1,020
014	John Dean	john@icloud.com	12/01/96	09/05/25	3	₱ 1,200
015	Patricia Raz	patr@gamil.com	01/15/97	09/24/25	4	₱ 1,550

### Functionality

4. Shows every customer record from the simulated database by utilising a thorough GET API call.
5. Enables administrators to quickly monitor important metrics for each of the 15 customer records, such as Orders and Total Spent (which add up to 57 orders and ₱20,980 spent on the whole list that is shown).
6. Contains a Search Bar Mockup that imitates the administrator querying the database or API to filter records by Customer ID, Name, or Email.

### Purpose

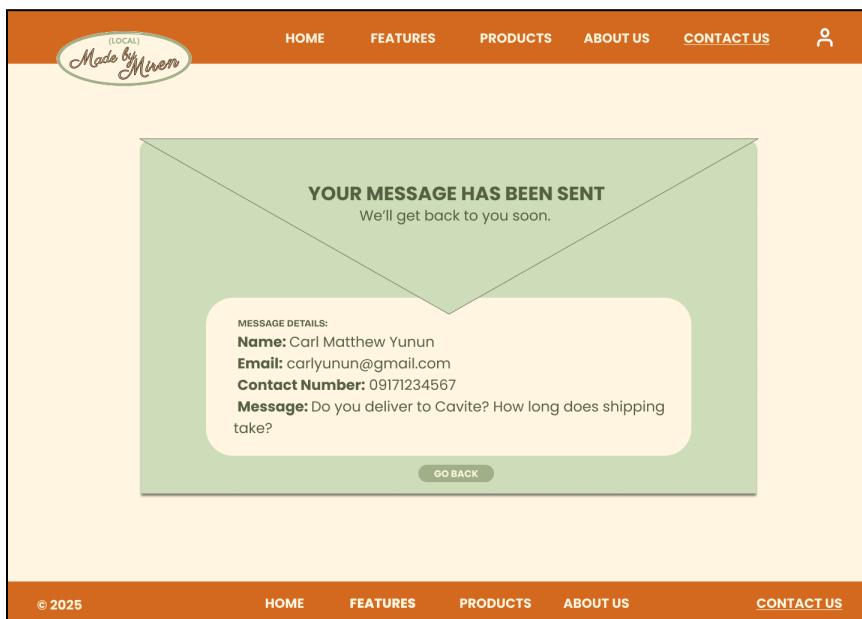

4. To assist the administrator in effectively tracking client loyalty, identifying high-value clients (such as Kurt Sicat, who has ten orders), and monitoring customer behaviour.

## HOLY ANGEL UNIVERSITY

5. To keep accurate records of communications with customers and guarantee that all information utilised on the User Profile View is consistent and accessible from a single source.

### 3. Contact Us Messages

#### a. User-end View

#### Functionality

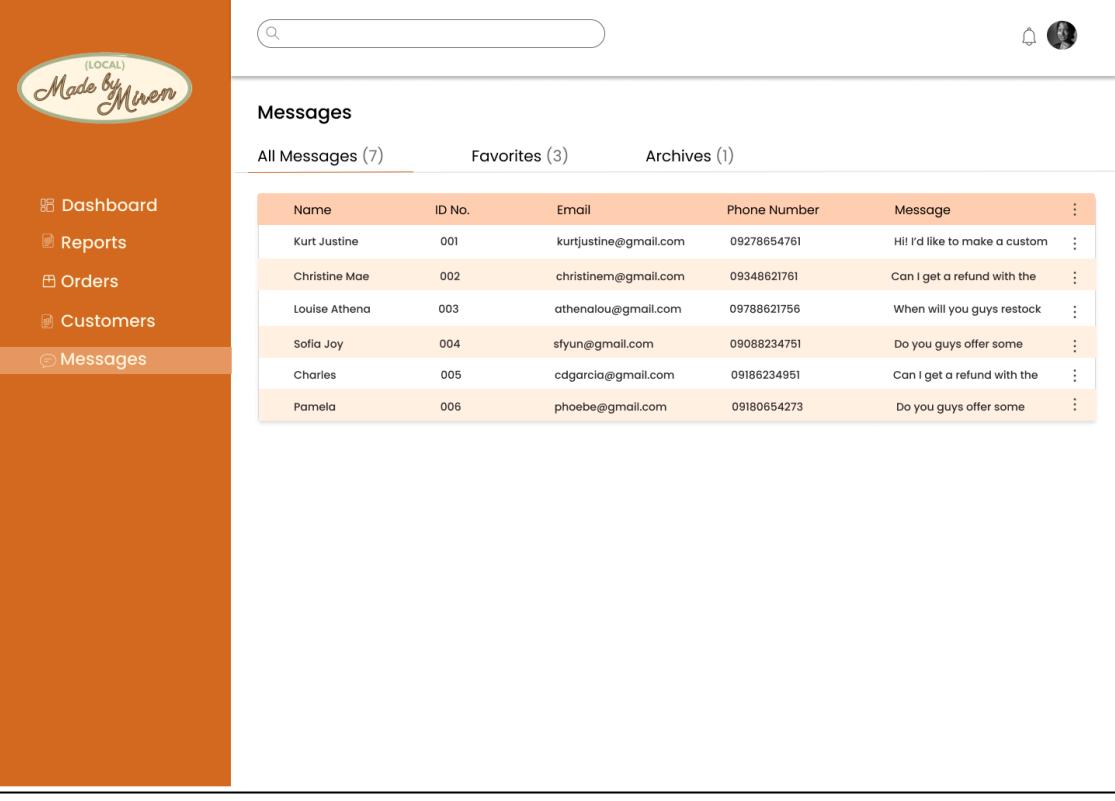

2. Allows users to fill out and submit their name, email, contact number, and message through the Contact Us page. After submission, the form data is sent and displayed dynamically using GET API, showing details submitted by the user.

#### Purpose

3. To provide users with an easy way to contact the business.
4. To confirm that their message has been successfully submitted and received.

## HOLY ANGEL UNIVERSITY

### b. Admin View

The screenshot shows the 'Messages' section of the admin dashboard. On the left, there's a sidebar with a logo '(LOCAL) Made by Mireen' and links for Dashboard, Reports, Orders, Customers, and Messages (which is currently selected). The main area has a search bar and a user profile icon. Below the search bar, the title 'Messages' is displayed, followed by three tabs: 'All Messages (7)', 'Favorites (3)', and 'Archives (1)'. The 'All Messages' tab is active, showing a table with the following data:

Name	ID No.	Email	Phone Number	Message	More
Kurt Justine	001	kurtjustine@gmail.com	09278654761	Hi! I'd like to make a custom	⋮

Pamela	006	phoebe@gmail.com	09180654273	Do you guys offer some	⋮

### Functionality

1. Displays all submitted messages from users using GET API.
2. Allows admin to view, track, and manage customer messages in one organized interface.

### Purpose

1. To help the admin efficiently monitor and respond to user inquiries.
2. To maintain proper communication records for better customer support and service management.

## HOLY ANGEL UNIVERSITY
